If you select “I would like to store the card that I will use for this transaction” in the WisePay checkout this allows SagePay to recognise and store your credit/debit card details for future transactions.

Your card details are never stored by WisePay.

When making future payments, the last four digits of your stored card and expiry date will be displayed on the checkout screen.

To continue with a payment you can choose to either use your previously stored card, or use a new one.
